

SEAL BIT + isolating gel

Reference: SEAL BIT +
Product code: 20630001
EAN code: 8429898014852

Main characteristics

- Single component isolating gel.
- For electrical and electronic protection.
- Special for low temperatures.
- 280ml cartridge.

More information

Seal Bit + gel, ready-to-use insulator with no waiting time and no product waste.
It can be used as an insulator in several applications that require total and reversible sealing.
For application with standard spray gun.

Characteristics

For application with standard spray gun.
Supplied with cannula and cap.

Technical Specifications

Working temperature: $-60^{\circ}/+200^{\circ}\text{C}$.
Dielectric strength: $>23\text{KV/mm}$.
Installation temperature: $40^{\circ}/+110^{\circ}\text{C}$.
Degree of protection: IP 68 with the appropriate container.
