

SEAL BIT 2+ isolating gel

Reference: SEAL BIT 2+
Product code: 20630002
EAN code: 8429898014869

Main characteristics

- Bicomponent isolating gel.
- For electrical and electronic protection.
- Two bottles of 500ml to be mixed.

Seal Bit 2+ Gel, a two-component insulator for equal mixing.
It can be used as an insulator in several applications that require total and reversible sealing.
In 4 minutes we will be able to finish the process.

Characteristics

Supplied with two two-component bottles and a quick acting mixing glass with plastic spatula.

Technical Specifications

Working temperature: $-60^{\circ}/+200^{\circ}\text{C}$.

Dielectric strength: $>23\text{KV/mm}$.

Installation temperature: $40^{\circ}/+110^{\circ}\text{C}$.

Degree of protection: IP 68 with the appropriate container.
